DETAILED ACTION

1. Applicant's arguments and remarks, filed Jun 25, 2004, with respect to the 35 USC 103 rejection(s) (paper no. 20, dated 21 March 2004) of claim(s) 1 and 11, have been fully considered and are persuasive. Therefore, the previous rejection has been withdrawn and the application is in condition for allowance.

Allowable Subject Matter

2. Claims 1 – 20 are allowed over the prior art of the record.

3. The following is an examiner's statement of reasons for allowance: the prior art of the record fails to anticipate or rendered obvious the distinct conditional limitations of "calculating average complexity of whole coded data from the quantization step size provided to the coding means and also generated code bit count provided from the video coding means and setting a reference quantization step size for each first image unit corresponding to the target average bit rate from the average complexity, along with other steps as cited in the independents claims 1 and 11".

Claims 2 – 10 and 12 – 20 are allowed with respect to the independents claims 1 And 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
